SK2: 94.4 cm (W), 45.4 cm (D), 17.0 cm (H)

Weight SK1: 7 kg, SK2: 16 kg

Combination of a real Hammond and great vintage sounds.

For a long time the Hammond sound has been indispensable in rock and pop music amongst other genres. Acoustic pianos and other vintage keyboard sounds are also very popular and frequently used in all kinds of music.

With the introduction of the new *Sk* series, Hammond has successfully combined the legendary B-3 sound with

high quality vintage sounds such as acoustic pianos, electric pianos, strings and many other sounds and effects. The result is a combination which organists and keyboard-players could only dream of.

The beautiful designed Hammond *Sk* models are affordable, extremely lightweight, compact and feature everything needed for “live” or “studio” performance.
